BROR Records presents its third instalment with a split 12-inch record with two original tracks. Delivered from the west coast of Sweden, city of Gothenburg.

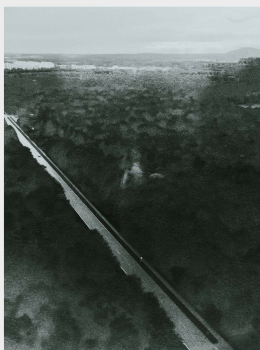

After his first appearance on the labels second release with the widely appreciated remix of „Stateunkwn“, Arkajo (Genius of Time / Aniara Recordings) returns with the highly effective five minute break workout „Vamp“. A track initially presented as part of Arkajo’s live set now finally sees the light of day as part of this vinyl.

On the B-side BROR proudly holds the debut of DJ Lily. With a planned EP on BROR04 in October, DJ Lily presents the atmospheric techno trip „Folia“ that stylistically paves the way for the next release.
