Key Selling Points

Track taken from Chloé's album to be released next month on Lumière Noire records, with a special featuring by Ben Shemie, from the Montreal band Sunns.

This is a special edit for this EP, it brings a heavy and animalistic rhythm, carried by Ben's vocals.

Following her brand-new album Endless Revisions' stellar first single The Dawn, Chloé goes down an ever more adventurous path with Recall.

Very special guest [Ben Shemie](#), vocalist for Montréal's mesmerizing [Suuns](#), lends his voice to the track's nebulous atmosphere. «*Suuns is one of those rare bands whose music is felt through the body first. It's a very disorienting feeling,*» Chloé observes.

The singer's whispered vocals are right at home over the track's mechanical, swaying beat, echoing his own band's abrasive songcraft, which vacillates between psych and post-rock radicalism. The backbeat and vocals engage in a call and response, eventually merging together in a sort of effects-drenched pagan psalmody.

"I wanted to write a 'pop' song in my own way, with a heavier, more animalistic rhythm. Ben's voice express this carnality, kind of like if the music itself was sweaty, but with a more subdued, aloof form. With Ben, you feel like you can write any type of song and that his voice will find a way to take it to another level.»

Recall is a daring EP, light years away from dancefloor electronic orthodoxy, and a highlight of Chloé's new album, a slow-burning suite that harbors its lot of enticing detours, dizzying highs and flashes of brilliance.
