Milan based collective Just This are proud to present the 'Absolute Infinity EP', a joint release from Netherlands-based producers Sinfol and Octual. Featured in this package are two remixes from Gerd Janson prescribing a heavy dose of acid.

Title track is a stripped back groove with a looping synth lead that wanders through ricocheting drums. For his first remix Gerd muffles the framework of the original, making room for a floating melody and warm lead, whilst the 'Acid Only' version takes the components of the original and throws them into a bath full of acid. Closing off the EP is 'Wire', a moody dancefloor cut for the after-hours.

Tracklist:

- 01 Absolute Infinity
- 02 Absolute Infinity (Gerd Janson Acid Only)
- 03 Absolute Infinity (Gerd Janson Remix)
- 04 Wire
