

# CIRCLE OF LIVE

**Circle Of Live** is a brand new, live acts only, event series concept and a record label curated by **Sebastian Mullaert**, honouring the values of spontaneity and improvisation.

*'The main intention with Circle of Live is to inspire people to improvise; let their life be an improvisation; a spontaneous expression of life. In one perspective this is a concept with clear visions and definitions but at the same time the core aim of the project is to allow both us, the artists, and the audience to drop concepts and habitual patterns in the creative process of dance and music.'*
